2

Step 1 • System inspection

3

The wizard has scanned the working directory. Confirm the detected CHARMM-GUI inputs or edit paths before parsing.

Detected CHARMM-GUI artifacts

File	Detected path	Status
AMBER topology	step3_input.parm7	✓
AMBER coordinates	step3_input.rst7	✓
PDB structure	step3_input.pdb	✓
AMBER input (MDIN)	step5_production.mdin	✓

CP2K installation

✓ cp2k (2025, 2, 0) · cp2k.psmf

Topology

✓ Parsed 22 atoms · box not parsed · 8 atom types resolved

System analysis

2 residues 3
box not parsed
types 8 resolved

QM region

- Phase rail — current and remaining steps
- Sticky system summary (atoms, residues, QM region)
- Auto-detected inputs, each with its provenance
- Progressive disclosure — expert detail on demand
